DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 15, 30 and 36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, Claims 1, 15, 30 and 36, recites the word [**"necessary requirement, and plurality of constraint , and necessary objective"**].

However this language fails to distinctly claim Applicant's invention because the scope of the claim is unclear. Moreover the specification fails to clarify, the meaning of the limitation.
Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, Claim 1, states **"determining at least one of said offers that complies with a necessary requirement associated with said campaign wherein each of said plurality of offers simultaneously satisfies a plurality of constraints and complies with said necessary requirement "** it is unclear which plurality of offers is being determining science Applicant's is determining at least one of the plurality and each of the plurality of offers . . .". For further examination, the examiner interprets the limitation in light of this 112, second rejection.

In particular, Claims 30, states **"determining at least one necessary objective associated with a campaign regarding said financial product wherein each of said plurality of first and second offers satisfies a plurality of constraints and complies with said necessary objective"** it is unclear because Applicant's is determining at least one necessary objective and and wherein each of said plurality of first and second offers satisfies a

plurality of constraints . . .”. For further examination, the examiner interprets the limitation in light of this 112, second rejection.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Conclusion

RESPONSE TO ARGUMENTS

5. Applicants argument's filed 2/7/2007 has been fully considered but they are not persuasive for the following reasons.

6. In response to Applicant's arguments that Steele fail to teach or suggest "provide an offer that simultaneously satisfies a plurality of constraints and complies with a necessary requirement" the examiner disagrees with Applicant because these limitations were addressed as stated.

Steele teaches determining a plurality of offers regarding a financial product available for a campaign; determining at least one of said plurality of offers that complies with a requirement associated with said campaign, determining at least one of said offers that complies with a necessary requirement associated with said campaign wherein each of said plurality of offers simultaneously satisfies a plurality of constraints and complies with said necessary requirement (see column 1 paragraph 0004 and column 2 paragraph 0027-0035 and column 3-13 paragraph 0036-0174 determining a plurality of recipients associated with said determined at
